CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevis manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

per Annum and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries, and Food, and if a test for Johne's Disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries, and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the Test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous Test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at

the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.

(g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.

(h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal

that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

BAPTON SHORTHORNS

THE Bapton Herd has, for many years, been one of the most distinguished and impressive in the United Kingdom. The soundness and reliability of both the cattle and their pedigrees have made Bapton a cornerstone of the cattle-breeding world.

The herd was founded in 1867 at the Bapton Manor Farm, Wiltshire, and in 1890, when the late Amos Cruickshank gave up his famous Sittyton Herd, one half went to Collynie, and the other half to Bapton. After having moved a few times, the Herd, in May, 1953, was transferred from Delaware to Cairnbrogie, quite near to Sittyton, where the stock had come from sixty-five years earlier.

Only the very best stock bulls have been used, mostly Collynie bred through the early part of the century, and in 1931, the great Calrossie Ringleader was purchased. He proved a paramount sire, and was followed by Calrossie Air Control, a son of the famous Calrossie Control. It was Air Control's grandson, Bapton Air Pilot, who has done so much for this herd, and for the breed, during the last twenty years.

In 1951 the great white Kirkton Hercules was purchased for 5000 guineas, after winning his class at Perth. Recognised as one of the famous Kirkton Baronet's greatest sons, he has certainly left his mark in the herd, passing on his beautiful character and quality to his offspring.

To follow Kirkton Hercules, Calrossie Constellation was purchased in 1954 for 5600 guineas. Undoubtedly one of the world-renowned Calrossie Welcome's best sons, his record to date is well-known. His dam, Calrossie Flossy Beau, is perhaps Kirkton Baronet's best daughter at Calrossie.

The proven merit of Bapton Cattle is borne out by the prices paid by home and overseas breeders, while the number of prizes won by the herd is a record. In recent years these include supreme championships at the Royal Highland, Royal English, Great Yorkshire, Perth, Aberdeen, and many other smaller Shows.

At the first Reduction Sale ever held from the herd in October, 1957, 43 females averaged £673 14s. 2d.

This small select draft of 25 females will be a grand opportunity for anyone desirous of obtaining this successful line at the present minute. As perusal of the pedigrees will show, these are the very best breeding available to-day.

With the tremendous amount of interest shown in Polled Shorthorns during this past show season, we are offering a few females bred to our imported

American Polled bull, Coronet Max Leader 3rd. This is a bull with a great head, grand bone, and tremendous scale. His sire, Priam Royal Leader, is one of the greatest Polled Shorthorn bulls alive to-day. Coronet Max Leader 3rd's top eight sires and seven dams are all polled.

The Bapton Shorthorn Herds have been very successful over the last few years. In 1957, they won the supreme championship at Perth, and at every Summer show at which they exhibited the supreme championship was won.

In 1958, Bapton Robin, our best bull, was retained, but in spite of this, Bapton won the group for the three best bulls and the group for the five best bulls, were reserve for the pair, reserve for the three by one sire, and came out with one of the top averages.

In 1959, the Bapton Herd won the senior and supreme championship with Bapton Daily Express. Napoleon, also shown from the herd, won the junior and reserve supreme championship. The herd won six 1st prizes and all the group cups. At the Summer shows, with two exceptions, Bapton have won the supreme championships. The number of prizes won this year is a record for any breed. They include 31 championships, 27 reserves (most of these to a Bapton champion female), 39 firsts, 35 seconds, and 31 thirds. They also included the winners of the Burke Trophy for the inter-breed championship at the Royal Show, which was won by Bapton Northward Bound and Bapton Augusta Mary, the first time in the history of this event that the two prize-winning animals have come from the same herd.

TESTS

All the animals, with the exception of the youngest heifer calf, have been vaccinated with Strain 19, and all have passed the Blood Test prior to vaccination. Several of the older females have been adult vaccinated. The herd is Attested, and all the animals exposed for sale have passed the T.B. Test on 24th-27th August, 1959. Also, on the same date, they were subjected to the Complement Fixation Test for Johne's Disease, and all passed the said Test.

Overseas buyers are asked to satisfy themselves as to which animals are eligible for their respective countries. A re-test can be given to buyers, and their purchases can be kept free of charge, at buyer's risk, until the re-test is completed, and, in the case of animals for export, until shipment is available.

Baldowrie Braemar (sire, Baldowrie Aladdin, reserve and junior champion at Perth in 1955) was purchased at Perth in February, 1957, for 1000 guineas.

Bright Daphne, purchased from Mr. James Biggar in October, 1954, is a member of a very distinguished family at Chapelton. Her first calf, Dungarthill Bright Dianthus, was exported to the U.S.A., and her second calf, Dungarthill Bright Dawn (full sister to Dungarthill Bright Daffodil) has had a successful show career, both as a calf and a yearling.

Date of last Test—21st to 24th October, 1958.

Inoculated with Br. Abortus Vaccine (Strain 19) on 10th August, 1959.

Bapton Roan Robin—see Reference to Sires (15).

Bapton Mary Crocus, the unbeaten yearling heifer of her year, is one of the best females in the herd. Her sire, Bapton Enterprise, was the top-priced bull of his year in the Argentine. He is also the sire of Mr. Hope's well-known stock bull in the Basildon Herd, Bapton Venture On, who has perhaps sired more fat stock show winners in the last number of years than any other stock bull in Britain.

Note the sires in this famous old Bapton Crocus family.

THE PITTODRIE HERD

THE much regretted recent death of Mr. R. Laidlaw Smith necessitates the sale of the renowned Pittodrie Shorthorn Herd in its entirety.

Shorthorns were first introduced to Pittodrie in 1906, but the present herd was founded by Mr. Laidlaw Smith in 1931 with entirely new stock. Since then, a choice herd has been developed with skill and judgement. No outlay was grudged in the purchase of the right type of animal, male and female.

The herd now comprises females of the following families:—Broadhooks, Rosewood, Orange Blossom, Goldie, Queen of Rothes, Brawith Bud, Princess Royal, Augusta, and Pauline, the strongest of these being Rosewood and Broadhooks. All have double crosses of Collynie Royal Leader and Naemoor Jasper.

One of the great foundation cows was Calrossie Rosewood Kate—a good red in colour, and an ideal type. She is dam of Pittodrie Jubilee, who was used for four years in the herd; Pittodrie Gold Standard, second reserve champion at Perth in 1938; Pittodrie Gold Finder, a Perth prize-winner of 1939; Pittodrie Banker, the Perth supreme champion of 1943, and sold for 4750 guineas; and Pittodrie Onward, sold in Argentina in 1944 at £3300. Two of her daughters and two of her grand-daughters were retained in the herd.

Another great breeding cow was Pittodrie Orange Blossom, dam of Pittodrie Landmark, who was successful at Saltoun; and also Pittodrie Red Rose (a Broadhooks by Jubilee), who is the dam of Pittodrie Grand Keystone. She came off the Cambus Broadhooks, her grand-dam being the noted Cambus Lady Broadhooks. Other good breeding cows were Schivas Lady Broadhooks and Pittodrie Goldie.

In 1946, twenty-six females were in calf to Bapton Upright, the famous sire of Pittodrie Upright, sold at Perth that year to Mr. Ralph Smith, Sni-a-Bar, Missouri, for the then astonishing record price of 14,500 guineas, and also sire of Pittodrie Uprise, sold the same day to Lt.-Col. S. J. L. Hardie of Ballathie, for 14,000 guineas. Pittodrie Upright is from a dam by Aldie Keystone, and Pittodrie Uprise is from a Rosewood dam by Collynie Legendary.

The Pittodrie Herd average that year was £7497 for five bulls, all by Bapton Upright, but it is worth noting, that at the same sale, three Pittodrie-bred sires returned high averages for their progeny with other herds, Pittodrie Regalia, Pittodrie Banker, and Pittodrie Mascot.

In 1947, Pittodrie again topped the Perth February averages with sons of Bapton Upright, and the following year his progeny again returned a four-figure average. In these and subsequent years up to and including 1950, Pittodrie-bred sires, including Landmark, Regalia, Impression, Bounty, and Banker, were all prominent in the list of successful sires, and it is worthy of note, that in 1950 the Palermo supreme champion was sired by Pittodrie Finance.

Over the same period extensive showing was never indulged in, but nevertheless the herd has exhibited with considerable success at all the principal Summer shows, including the Royal Highland, the Royal, Royal Northern, etc. The most recent successes include the winning of the female championship at the 1958 Royal Highland Show at Ayr with the outstanding cow, Pittodrie Minerva (by Cruggleton Raeside and carrying a double cross of Cruggleton Perfect). Prizes were also won at this year's Royal Highland, one of these being a 1st with a yearling bull calf which will be offered at the Dispersal.

A total of thirty-three females and three bull calves will be exposed, and their breeding is such that they should prove most attractive prospects.

PITTODRIE HERD DISPERSAL SALE

No warranty is given with these animals, but all particulars in the Catalogue are correct to the best knowledge of the owner. The Single Intradermal Comparative Test was carried out on 25th-28th August, 1959, with negative results.

**The following animals were bred by
the late Mr. R. Laidlaw Smith, Pittodrie, Pitcaple, Inverurie, Aberdeenshire,
unless otherwise stated.**

Bapton Good Year is a bull with a beautiful head and tremendous character, bone, and scale. His dam, Polly Wimple, bred by the late Mr. A. J. Marshall, is one of the best females in the herd. She is the dam of Bapton Silver King, stock bull in the Gotwick Herd, and winner of numerous prizes and championships throughout England. Bapton Good Year was retained in the herd on account of his tremendous substance and the out-cross obtained through his Cruggleton-bred dam.

- (15) **BAPTON ROAN ROBIN** (13110), dark roan, calved 1st January, 1957, bred by Mr. Cecil Moores—sire, Bapton Constructor (6414); dam, Bapton Augusta Margaret (432497) by Kirkton Hercules (381696).

This outstanding son of the record-priced Bapton Constructor was retained as a stock bull in the Bapton Herd. His first calf, Bapton Andree Actress, won seven 1st prizes at Summer Shows in the junior yearling classes in 1959. Being calved in September, she was giving away a lot in age to other competitors. Like all Roan Robin's calves, she is an animal with tremendous character. His first bull calf, owned by Mr. James Grigor, Lentrane, recently won the supreme championship at the Black Isle Show. His second bull calf, Kinellar Royal Robin, has been selected, when only six months old, by Mr. W. B. Donaldson, Mr. Cadesky's well-known Louada Manor Farms Manager, to succeed the famous Bapton Constructor. Kinellar Royal Robin is acclaimed throughout Britain as the best calf this year. He is a calf with a beautiful head, tremendous bone, substance, and quality. Bapton Augusta Margaret is perhaps the best daughter of the famous Kirkton Hercules. She is a female with tremendous character and quality. Her 1959 heifer calf, by Calrossie Constellation, is perhaps the pick of that season's crop.

To keep our line breeding programme intact, we retained Bapton Roan Robin, a grandson of Calrossie Constellation, and we are mating him back to Calrossie Constellation's daughters, and from this cross we are getting our best Roan Robin calves.

- (16) **BAPTON NORTHWARD BOUND** (6423), dark roan, calved 26th May, 1955, bred by Mr. Cecil Moores—sire, Calrossie Hyperbole (391674); dam, (397601) Fair Clipper 45th by Calrossie Highland Leader (352909).

Bapton Northward Bound, the 1959 Bull of the Year, has won many championships, including the supreme at the Royal, Great Yorkshire, Royal Lancashire, and Turriff Shows. He was also one of the Bapton pair to win the Burke Trophy at the Royal Show. His three sons won the Pittodrie Challenge Cup for the best three bulls by one sire at Perth, and some outstanding sons are coming on for Perth, 1960. Fair Clipper 45th, the unbeaten female in Britain in 1956, was one of the pair to win the Burke Trophy at the Royal, and is the first Burke Trophy winner to produce a son which has been one of the pair to win this coveted Trophy.

- (17) **BEAUFORT CAUTION** (6069) won 2nd prize in his class at Perth in 1957, and was bought for the Shrigarton Herd at 1800 guineas. He won 1st prize in his class at the Royal Highland Show at Dundee in 1957, and 1st prize in his class at the Royal English Show at Norwich in 1957. He is the sire of Shrigarton Ranger, 2nd prize winner in the late-January class at Perth in 1959, and sold for 1000 guineas to Mr. Gilbert Elkin, North Dakota, U.S.A.

- (18) CALROSSIE CONSTELLATION (396200), red, calved 1st March, 1953, bred by Messrs. John & D. P. MacGillivray—sire, Calrossie Welcome (368471); dam, (318937) Calrossie Flossy Beau by Kirkton Baronet (335904).

The bull of the year in 1957 needs little comment. He is perhaps one of the greatest sires the breed has produced in recent years. His first son, the record-price 15,000-guineas, Bapton Constructor, has created a new era in Shorthorns in North America. Other famous sons in North America are the 7000-guineas Bapton Cairnbrogie; the 4100 guineas Bapton Copyright; the 2200 guineas Bapton Cavalier; and Bapton Craftsman, sold at Edellyn Sale to Mr. Anthony Petkus; all bulls which are making their mark on the breed over there to-day. His females are offering to be grand breeders, and very few of them have been offered for sale—this is likely to be the last opportunity of obtaining some of his daughters.

- (19) KIRKTON HERCULES (381696), white, calved 22nd February, 1950, bred by the late Mr. K. P. MacGillivray—sire, Kirkton Baronet (335904); dam, (318953) Rothés Carlotta by Naemoor Marshal (345049).

Kirkton Hercules was an outstanding sire of the Bapton Herd. His females have tremendous character. Without exception they are great milkers, and are proving to be grand breeders. They have produced such notable bulls as Bapton Roan Robin, junior stock bull in the Bapton Herd; Bapton Daily Express, the 1959 Perth champion; the 4000-guineas Bapton Connoisseur; the 3000-guineas Bapton Clanroy; the 2200-guineas Bapton Cavalier; the 1800-guineas Bapton Chieftain; and also the 3300-guineas, record-priced female, Bapton Crocus Lita. Kirkton Hercules is the sire of Bapton Aurora, sold for 5000 guineas, whose three sons won the Pittodrie Cup at Perth in 1957, and included the supreme champion, Bapton Controller. Three of Hercules' daughters won the Duthie Prize at the Royal Highland Show in 1956.
